

At a time when it is difficult for a parent to navigate the airwaves for decent programming that is appropriate for family listening, it is imperative that the FCC give priority to this kind of broadcasting. K-LOVE provides this not only for my family but for the community as well. We need this type of positive programming and not the "lets see how far we can push the FCC envelope" type of messages on other stations. My family and my community deserves the support of the FCC on this issue. Do not get rid of K-LOVE.

Thank you,  
Cheryl Linkinhoker
